Our Promise to You

At SunnyMac our customer promise is built on the foundation of reliability, personalized service and environmental stewardship. We guarantee a stable and trustworthy source of clean energy that powers your home for years to come. Our dedicated project managers are committed to putting your needs first, ensuring a seamless and satisfying experience at every step. With us, you're not just a customer; you're a partner in our shared journey towards a sustainable future.

You are in Good Hands

We strive to make going solar as easy as possible. Our teams cover each step of the solar process, including everything from design, rebates and permits to procurement and installation. We have completed over 16,000 residential installations since 2017 and we are an Owens Corning Platinum Preferred partner and a BBB A+ rated accredited business, so you can feel confident in your decision to choose SunnyMac.

SUNNYMAC

YOUR JOURNEY TO SOLAR

START
HERE

1

HOME VISIT

Our site survey technicians will collect measurements and photos of your home.

DESIGN

We review home visit photos and notes to create your finalized design.

2

3

APPROVALS

We process your applications to the township and utility company, taking about 45 days. Updates will be provided.

4

INSTALLATION

We'll handle preinstallation tasks and schedule your solar setup. Installation usually takes one day.

5

FINAL INSPECTIONS

We arrange electrical, building and fire inspections with your township. Approval precedes final utility permission to operate.

6

PERMISSION TO OPERATE

Your utility has issued final permission to operate, and we turn your system on.

YOUR SOLAR SUCCESS TEAMS

Our expert solar teams move your project smoothly through each stage from start to finish.

PROJECT MANAGEMENT

Your designated project manager will be your main point of contact throughout the process.

Jackie M.
Team Lead

Ellen G.
Team Lead

SITE SURVEY

Conducts a review to ensure you get the best possible results.

Mike,
Team Lead

DESIGN

Ensures your system will maximize energy output and savings.

Cam,
Team Lead

PERMITS

Obtains all needed permits for your solar project.

Stephanie,
Team Lead

INTERCONNECTION

Ensures the system is compatible with your utility power grid.

George,
Team Lead

ROOFING

We are Owens Corning Platinum installers.

Steve,
Team Lead

TREE REMOVAL

Coordinates tree removal to obtain optimal sunlight.

Brenden,
Team Lead

INSTALLATION

Ensures panels are mounted as designed for optimal energy.

Andie,
Team Lead

REBATES

Helps get the rebates you are qualified to receive.

George,
Team Lead

Congratulations, you've planted a tree!

We are committed to helping build a sustainable future and reforest areas that need it most. We will donate one tree to be planted in a National Forest for each solar installation provided and each tree we cut down to obtain optimal sunlight for our customers.
